

JOHN KIPRUTO

Full-Stack Software Developer | Next.js | NestJS | React Native

Nairobi, Kenya | +254768583817 | johnkipruto157@gmail.com | <https://github.com/John-Kipruto>

PROFESSIONAL SUMMARY

Full-Stack Developer with 3+ years of experience building and maintaining production web and mobile applications using TypeScript, React, Next.js, Node.js, NestJS, React Native, and Expo. Experienced in designing REST APIs, database-driven workflows, authentication and authorization systems, and third-party integrations. Strong background in PostgreSQL, MongoDB, Prisma ORM, and Mongoose, with hands-on experience optimizing queries, debugging production systems, and delivering features across the full software development lifecycle.

TECHNICAL SKILLS

- **Frontend:** Next.js, React.js, React Native, Expo, Tailwind CSS, Redux Toolkit, Zustand
- **Backend:** NestJS, Node.js, Express.js, RESTful APIs
- **Databases & ORM:** PostgreSQL, MySQL, MongoDB, Prisma ORM, Mongoose
- **Authentication & Security:** JWT, Auth0, Role-Based Access Control (RBAC)
- **Cloud & DevOps:** AWS S3, AWS EC2, Docker, Linux, CI/CD Pipelines
- **Tools:** Git, GitHub, GitLab, Postman
- **Architecture & Methodologies:** Microservices Architecture, RESTful Architecture, Agile/Scrum

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Simple Formations

August 2024 - Present

- Designed and maintained RESTful APIs and backend services using NestJS, Node.js, and TypeScript to support company formation, corporate compliance, invoicing, payments, and document-management workflows.
- Built responsive web applications and enterprise dashboards using Next.js, React, TypeScript, Redux Toolkit, and Tailwind CSS, implementing reusable components and complex multi-step business workflows.
- Developed and optimized MongoDB aggregation pipelines, PostgreSQL queries, data models, and indexes using Mongoose and Prisma ORM to support complex organizational relationships, reporting, invoicing, and transaction workflows.
- Implemented authentication and authorization workflows using JWT, Auth0, role-based access control, route protection, and backend permission checks for sensitive organizational and user data.
- Integrated third-party services including Paystack, Dropbox Sign, Auth0, SendGrid, AWS S3, and document-processing platforms, implementing resilient error handling and asynchronous workflows around external API interactions.
- Diagnosed and resolved production issues across frontend, backend, databases, and third-party integrations, improving application reliability and reducing recurring system failures.
- Contributed to application architecture decisions, code reviews, Git-based development workflows, and Agile delivery processes while maintaining clean, reusable, and maintainable code.

Web / Mobile Developer | Bantu Technologies

January 2023 - August 2024

- Developed and released cross-platform Android and iOS applications using React Native and Expo, maintaining shared application logic and reusable components across both platforms.
- Built responsive web applications using React.js, TypeScript, and modern CSS frameworks, translating product requirements and UI/UX designs into production-ready interfaces.
- Integrated REST APIs and authentication workflows across web and mobile applications, handling client-server synchronization, validation, loading states, and API error scenarios.
- Implemented client-side state management using Redux Toolkit and Zustand, reducing redundant API requests and improving consistency of shared application state.
- Designed modular and reusable UI components with form validation, error handling, and responsive behavior to improve maintainability and user experience.
- Collaborated with product, design, and engineering teams to translate technical and business requirements into functional application features.
- Diagnosed and resolved cross-platform compatibility issues and mobile performance bottlenecks to ensure consistent application behavior across different devices and operating system versions.

EDUCATION

- **BSC Computer Science** | Egerton University, Njoro | 2017 - 2022
